

Environmental Policy

Considering the purpose and context of the organization, and the condition of the environment in which the company operates, the management of SA Engineering is committed to the continual improvement of the Environmental Management System (EMS), according to compliance and other obligations, and by following the principles and requirements of ISO 14001.

The framework for setting environmental objectives is defined in the QHSE Management Plan.

SA Engineering management are acting to protect the environment by preventing and eliminating environmental pollution through:

- Continual education in order to prevent environmental pollution, preserve natural resources, and improve the EMS
- Continual raising of environmental awareness through a framework of continual improvement.
- Activities that emerge from the context of the organisation
- Following environmental procedures in order to decrease environmental pollution, and prevent degradation and damage to the environment
- Decrease of adverse impact on water, soil, air, and biodiversity.
- Integrate the consideration of environmental concerns and impacts into our decision making and activities,
- Minimise our waste and then reuse or recycle as much of it as is possible.
- Minimise energy and water use within our buildings and processes in order to conserve supplies and minimise the consumption of natural resources.
- As far as is possible, purchase products and services that do the least damage to the environment.
- Train, educate and inform our employees about environmental issues that may affect their work,
- Promote environmental awareness among our employees and encourage them to work in an environmentally responsible manner,
- Communicate our environmental commitment to clients, customers and the public and encourage them to support it
- Where required by legislation or where significant health, safety or environmental hazards exist, develop and maintain appropriate emergency and spill response programs.
- Strive to continually improve our environmental performance and minimise the social impact and damage of activities by periodically reviewing our environmental policy in light of our current and planned future activities.

The Managing Directors are responsible for communicating the Environmental Policy to all persons working for or on behalf of the organisation and making it available to the public.
